COUNCIL OF MINISTERS

## September 16th will be the first call for public housing

Prices will be between 470 and 825 euros

ARNAU OJEDA GARCIA  
ANDORRA LA VELLA

On Wednesday, the Government approved the Regulation on access, awarding, management and the procedure to determine the affordable price of the public housing stock, which expands the assumptions to prove the need for housing. In this way, young people aged 35 or under who currently live in the family home for financial or other reasons, as well as people who live in hotels or tourist accommodation on a temporary or permanent basis, will be able to access it. In addition, another change mentioned was that the duration of the assignment of the flats is extended, which goes from three to five years, although it could be extended if the circumstances persist. An expansion that comes because of the worries that the population had shown, as

The Minister of the Presidency, Economy, Work and Housing, Conxita Marsol, at the press conference after the Council of Ministers.

explained by the Minister of the Presidency, Economy, Work and Housing, Conxita Marsol, in the press conference after the Council of Ministers. On the other hand, a final amendment to the Regulation corresponds to the fact that until now it was necessary to have a rental contract in order to register, but from today young people aged 35 or under will not have to prove that they

have rented a flat and they will be able to access the register. This latest change has been made due to the fact that «there is a significant amount of people of this profile interested», detailed Marsol. With reference to the procedure for determining the price of the public housing stock, it is established that this must be at least 25% below the market price. A price that is not yet known,

since as Marsol emphasized «we lack the information from the Municipality of Andorra la Vella and Escaldes-Engordany, and that is why we cannot yet announce the price», she emphasized. In this sense, Marsol clarified that the information to be provided by the corporation of the capital will arrive very soon, according to some conversations. However, the holder of the Presidency portfolio stated that with Escaldes-Engordany «there has not been this facility to have this information». The first call will be open to people who are already registered between September 16th and 30th and corresponds to the 15 floors of the La Solana building in Pas de la Casa, ceded to the Government for management by part of the Municipality of Encamp. The prices of the homes will be between 470 and 825 euros, depending on the number of square meters and/or rooms.

The next building to be awarded will be that of Tobira, which is expected to be completed towards the end of September or the beginning of October. ●

# The Government will allocate 100,000 euros to create the Data Intelligence Agency

The entity will allow citizens to automatically change their physical or bank address data

EL PERIÒDIC  
ESCALDES-ENGORDANY

The Government presented on Wednesday the launch of the Data Intelligence Agency, a national body whose main objective is to define and articulate the bases, methodologies and tools for the correct management, use and exploitation of the data to obtain a unique and reliable data. As explained by the Secretary of State for Digital Transformation and Telecommunications, Marc Rossell, the agency's role will focus on providing the best tools so that, for example, when a citizen changes a physical or banking address this information can also be entered and changed automatically in all the places that the citizen has already provided the information in advance.

The Secretary of State for Digital Transformation and Telecommunications, Marc Rossell.

In this sense, Rossell explained that «what we guarantee with these practices is that the digital information held by administrations or companies is reliable and trustworthy, the-

refore, we improve attention to the citizen and simplify administrative management». Asked about the project budget, Rossell explained that it will be around 100,000 euros.

Therefore, the entity will allow internal and external management advice to be given to both companies and the public sector so that the data that is managed for users and citizens is always correct and, therefore, does not generate dysfunctions or conflicts when treat this data in aggregate and in the

digital field. In addition, the agency will also provide strategic support to the deployment of use cases or initiatives that integrate and value the use of data analytics and AI. ●

## Lines 5 and 6 will be free from August 29th to September 1st between 07:00 and 20:00h

EL PERIÒDIC  
ESCALDES-ENGORDANY

From August 25th and until September 1st, vehicle traffic will be interrupted on the CG-4, from kilometer point 6, at the exit from the village of Pal in the north, to the port of Cabús, as advanced this media. The expected cut-off time

is from 06.00 to 17.30 hours. At the same time, vehicle traffic on the CG4 from the Erts roundabout to kilometer point 6, at the exit from the town of Pal in the north direction, will be restricted to residents and customers of the affected area, as well as the organization. However, access will be permitted by motorcycle, with valid entry to

see the event, or by bicycle, without entry, to an area enabled for parking in the Camí dels Menairons area, practically at the foot of the track. Therefore, the national lines (L5 and L6) will be free from August 29th to September 1st between 07.00 and 20.00 hours, like the lines in the parish of La Massana. ●
