

NEW TRADE

The Family Cash hypermarket will open its doors on August 1st in Epizen

The establishment will become the company's first point of sale outside of Spain

EL PERIÒDIC
ESCALDES-ENGORDANY

The new Family Cash hypermarket in Andorra will open its doors next August

1st. This will have a team of a hundred professionals and will occupy an area open to the public of 6,145 square meters distributed over two floors. It will become one of the largest of the 42 that the chain has throughout the peninsula, and will have furniture adapted with digital supports that favor communication and interaction with customers, which will make Epizen's Family Cash hypermarket one of the most avant-garde of all that the Valencian firm has.

So, the establishment, located in the Epizen shopping center, will become the first point of sale of the company founded by the Canet Ferrero family outside of Spain, once the alliance with Grup Pyrénées has been sealed. The president of the Andorran firm, Patrick Pérez, declared that «the opening of Family Cash is a new asset for the country's economy» and emphasized that «with this new hypermarket, a large commercial space is coming to Andorra with a very competitive offer aimed at both resident customers and tourists and visitors in general», expressed Pérez.

For his part, the general manager of Family Cash, José Canet explained that «this new hy-

«This opening represents a new asset for the country's economy. It presents a very competitive price offer for all types of customers»

JOSÉ CANET

GENERAL MANAGER OF FAMILY CASH

«The hypermarket in the Principality represents one of the most important challenges for our firm for 2024. We want to be attractive to customers from neighboring territories»

permarket represents one of the most important challenges for our company for 2024, the year in which we also plan to open new establishments in the Spanish provinces of «Alicante and Toledo». Canet also maintained that with the opening of the hypermarket in Epizen «we hope to bring added value not only to the Andorran commercial offer, but we also want to bring added value and be attractive to all buyers in the border territories and tourists visiting the Principality». ●

MUNICIPAL REFORMS

Escaldes-Engordany invests 50,000 euros in expanding the dumping site

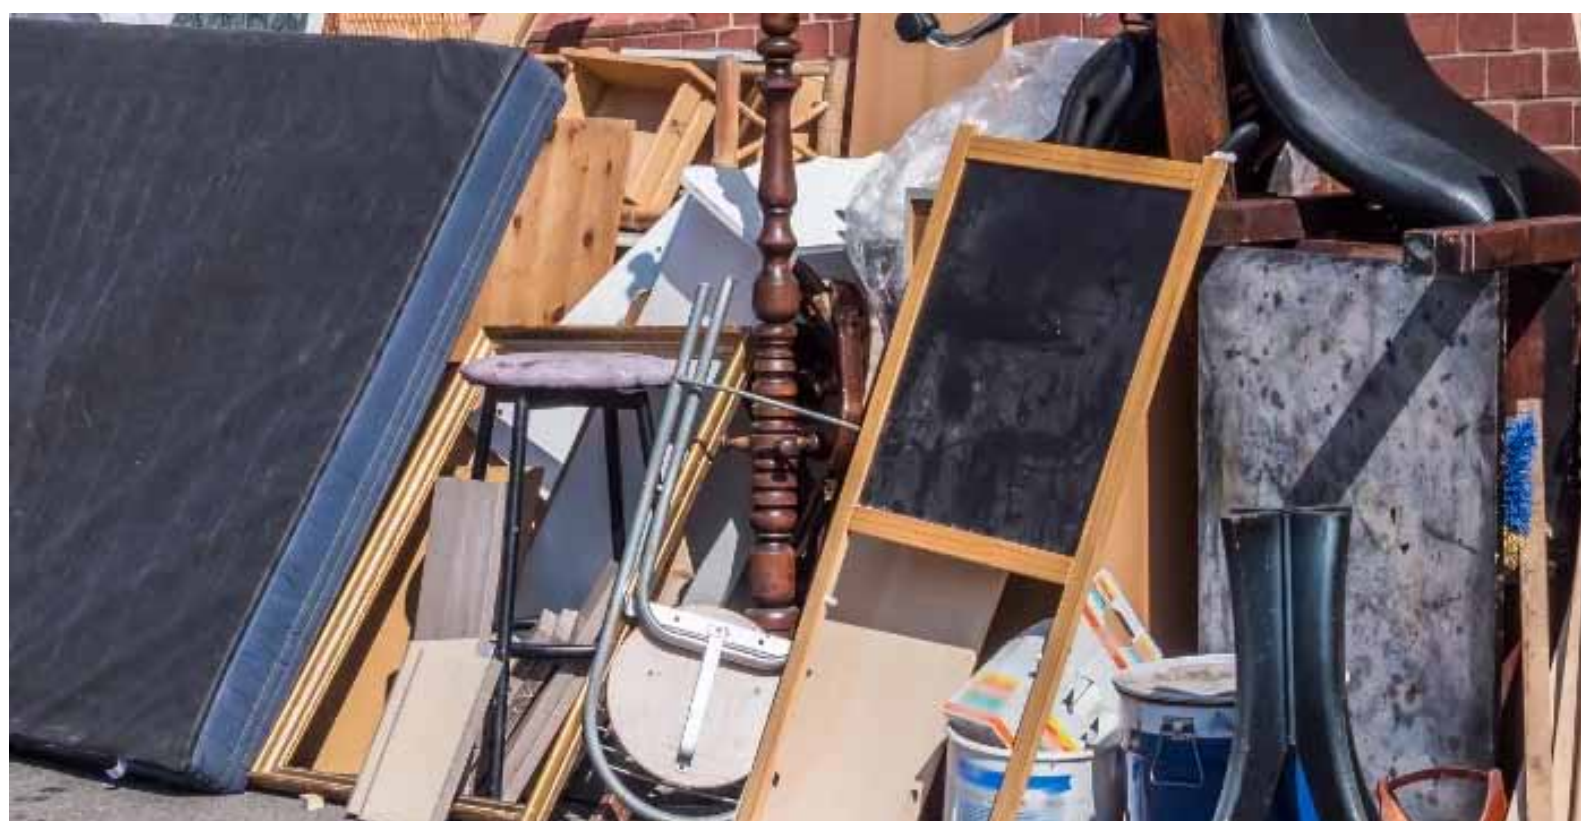

ARXIU ANA

It seeks to free up interior space that will be dedicated to selecting materials

EL PERIÒDIC
ESCALDES - ENGORDANY

The Municipality of Escaldes-Engordany is working to be able to expand the municipal dumping site, located on Pont de la Tosca avenue, to improve its operation. For this reason, it has awarded the services of drafting the executive project and construction management of the infrastructure expansion works to Naudí Arquitectura, for fees of 12% (estimated approximate amount: 50,000 euros) on the cost of the work actually executed.

According to details from the Municipality, the work will consist of the construction of a roof to protect the external annex space, which consists of a floor area of about 110 m². The aim of the extension is to be able to store the machinery and materials in the new area to free up interior space for the dumping site which will be dedicated to the selection of mate-

Escaldes-Engordany waste collection will be expanded to provide a better service.

rials. This action seeks to «improve the operation» of the plant.

It should be remembered that last May the Municipality of Escaldes-Engordany changed the opening hours for the public of the waste collection «to provide a better service to the public». The change involves the opening in continuous hours from 8.00 to 16.00 hours and not divided. The decision was taken after it was observed that

users left a large volume of bulky waste at the door of the dumping site when it was closed during the midday slot and that, on the other hand, it was less during the afternoon.

The Municipality also has another facility where you can deposit bulky waste or old utensils from four in the afternoon, the mini dump on Fener avenue which is usually open until seven. ●
